

Self-Taping Instructions

Lighting and Sound:

The actor should be well-lit, and the external Microphone (If you use one) must be close enough to the actor to understand what they are saying clearly. **PLEASE HAVE ANOTHER ACTOR READING OFF-CAMERA**

Framing

Shoot the head and shoulders so when watching the audition we can clearly see the actor's face. If you are taping on a **Cellphone** be sure to have it in **Landscape mode** (The phone is sideways, horizontal). **DO NOT TAPE IN PORTRAIT MODE** (The phone being upright, vertical)

Slate

Use a wide shot so all of the actor is in the frame. Please state your **NAME, HEIGHT, LOCATION, AND ROLE YOU ARE AUDITIONING FOR.**

Please respect the deadline.

Files

Please edit all takes together with the Slate to create one video file, please use the naming convention below:

ROLE- FIRST NAME LAST NAME

Note- please keep reads real, natural, and grounded
